JSI is an experienced Non Vessel Operating Common Carrier (NVOCC) for all major international carriers. Through our global network of experienced professionals and innovative tracking technology, we provide an integrated package of ocean freight services. As an ocean freight forwarder, JSI assigns cargo, arranges pickup and delivery locations, and streamlines document management guaranteeing the uninterrupted flow of goods. Our dedicated team handles all aspects of ocean shipments around the world. JSI is uniquely positioned in our ability to offer flexible ocean freight solutions along with a vast range of carrier options, numerous ports of loading/destinations and speed of service. The JSI team performs document preparation, delivers letter of credit shipments and, through our combination of long-term carrier relationships and strong buying power, provides customers with first rate, reliable services.
