If you have critical parts or products that needed to be there yesterday, trust JSI to hand carry your shipment to its destination. One of our trained employees will pick up your package, board a passenger or chartered jet, and hand carry your delivery to its destination. This service is the fastest, most secure way to get your urgent delivery across the country or around the world.

Our reliable On Board Courier services safeguard your urgent deliveries. Shipments are hand carried by an experienced courier who personally escorts and delivers your package directly to the recipient. Since our couriers can simply walk your shipment onto another flight if necessary – as well as clear Customs any time of the day or night – delays are avoided.
