

# BEYOND Ordinary Logistics

## Value Added

For more info, visit our website:  
[www.jsilogistics.com](http://www.jsilogistics.com)

Our value added solutions are designed to enhance our traditional warehousing services ensuring our customers gain a competitive advantage in every part of their supply chain. Our experts utilize the proper facilities, equipment and knowledge to accurately assemble and test all of your products. With the vast amount of products that come through our RMA program, we reuse what we can and find the most environmentally friendly methods to recycle the rest. When looking to make your supply chain run as smoothly and efficiently as possible you can count on JSI's supply chain management services to get the job done.
